Any print-out of License Relationship page in combination with the corresponding License tab, in Volume License Service Center (VLSC), identifies licenses that were issued to you according to Microsoft's records, as of the print date and time. These print-outs are legal evidence of your right to use the software products identified only to the extent they are consistent with the current License Summary records in VLSC. In the case of an inconsistency between a printed summary and the current records in VLSC, the current records will control.
